

## Announcement to be Posted on Courts Website

The list of psychologists who will undertake Practice Note 7 Interventions or Practice Note 8 Assessments is no longer on this website.

The presence of an individual's name on this website was not meant to be an endorsement or a credential, it simply listed those psychologists who were either known to the Court for doing such work or who had attended a training workshop pertaining to Practice Note 7.

A listing of psychologists who work with Practice Note 7 Interventions or Practice Note 8 Assessments can be found in the referral service on the Psychologists' Association of Alberta website: <http://www.psychologistsassociation.ab.ca>

To access the lists:

- a. Click on the 'online referral search' button (found on the upper left-hand side).
- b. Review the 'service agreement' information and click on "I agree".
- c. Type in the City you want to search in.
- d. Go on to the drop-down box next to 'Problem/Concern' and scroll down to select either 'Practice Note 7 QB Interventions' or 'Practice Note 8 QB Assessments' to get a complete list of psychologists who have self-identified as working in this area. If you wish you can also use other search criteria combined with this such as "region" for region of the city and 'language' to further refine your search. (However, this will also reduce the number of names that come up.
- e. Alternately, you can get the same information by contacting the PAA office at (780) 424-0294 Edmonton; (403) 246-8255 Calgary; toll free in Alberta 1-888-424-0297.

Please note that all psychologists who do this work are not necessarily part of the Psychologists' Association of Alberta referral service and there are other psychologists not identified on this list who also do this work. The presence of a psychologist's name on this list is not viewed as a credential; it is the responsibility of individual psychologists to provide service only within their area of competence and training.
